自此，時鐘將不再只是追求精準的機器，而是獲得舒緩生活的度量衡。

EMspec is a clock design brand of the new generation. With the original design concept and superior craftsmanship, time recognition has been elevated to another level, emphasizing the withdrawal of "pointers" and "numbers". Clocks are turned into home décor and redefine the notion of "clock" in space.

EMspec's designers are experts in using diverse and interesting elements, adopting conscious craftsmanship. The clock brings a warm and beautiful emotion to space on the basis of modern aesthetics. Finally, Emspec presents a simple and balancing aesthetic, turning clocks into the most treasured beauty in space.

Since then, clocks are not just machines of precision, but to endow with the means of easing our lives.

以前我們說光陰，是一種對時間的感知。然而，這「光」與「陰」，卻透過設計者的多維思考，直接嵌入時間辨識的載具 - 「時鐘」。一如 EMspec 品牌名字首的“E,M”，取自【Evening & Morning】，晝夜交替即是光陰，也是我們時鐘設計的初始與理念。

In the past, the idea of time was a perception of light and darkness. However, through the designer's multi-dimensional thinking, "light" and "darkness" directly embedded into the time-identifying media - "clock". As the EMspec brand name, "EM" is the abbreviation for "Evening & Morning". The alternation of day and night formed the base of time which is also the initial concept of our clock design.

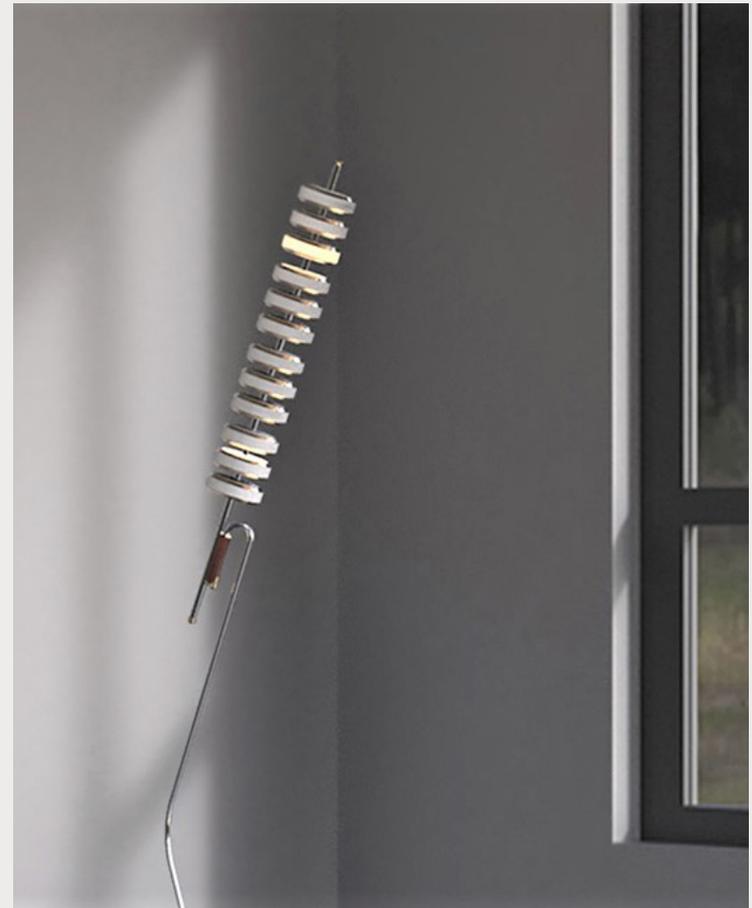

“Is a clock for keeping time, a daily necessity, or an interior decoration? We trust that most think of it as a timepiece. But through design, EMspec has sought to make clocks not just machines of precision, but to endow them with the means of easing our lives.”

QUADRANT CLOCK

QUADRANT CLOCK

時鐘 · 象限

「時鐘·象限」是一款壁鐘，設計靈感來自於笛卡兒所創建「直角座標系」，以光作為媒介，以二維式的交叉光作為時間辨識的方法。象限的設計外觀兼具流線性與現代感，適合各樣的室內空間。每當整點來臨，這款壁鐘就會上演一段短暫的燈光秀，一如星空下的流星，使空間裡的時鐘不再乏味無趣，而能重新詮釋時光的獨特性，將時間與人合諧共處於室。

"Quadrant Clock" is a wall clock inspired by "Cartesian coordinate system" created by René Descartes. Uses the light as the medium for transforming time into the 2-dimensional crossed light. The design of the Quadrant Clock is both linear and modern suitable for a variety of indoor spaces. When every hour comes, this wall clock will stage a short light show. Like a meteor under the stars, the clock in the space is no longer boring but can reinterpret the uniqueness of time and unite time with people.

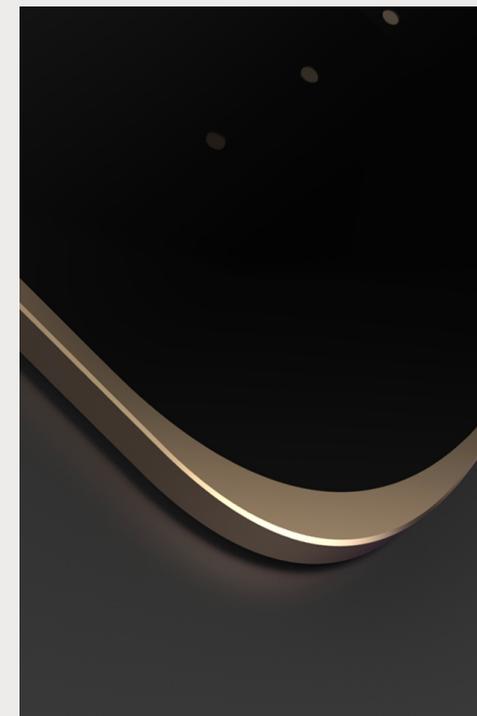

設計師運用光線條的單純交錯，帶著溫潤而簡約的設計風格，將時間的多維轉為平面，呈現出包容力十足的设计底蘊。

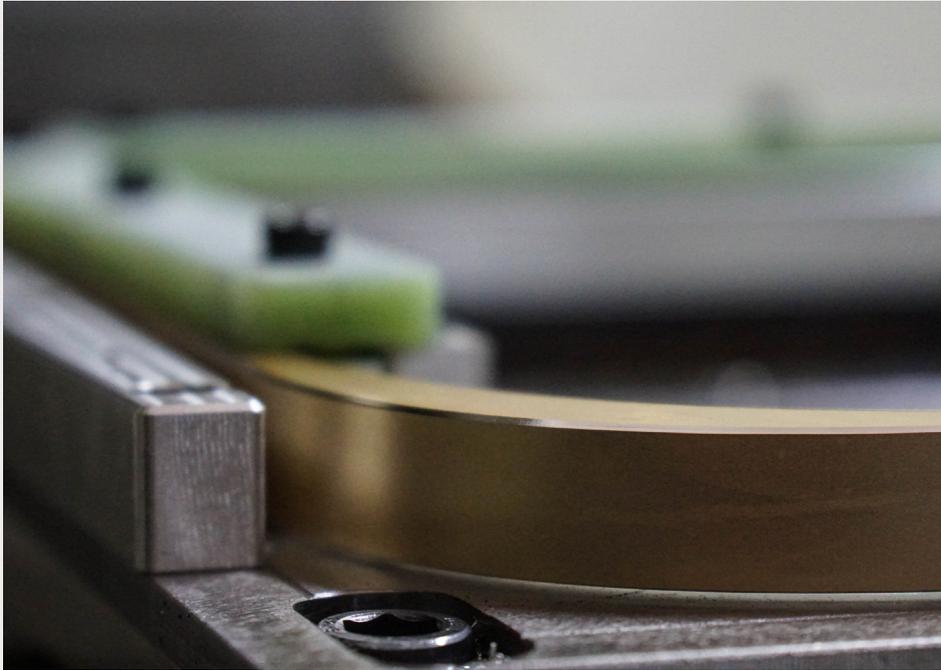

The designer uses the simple interlacing of light dots with a warm and simple design style, transforming time into the 2-dimensional crossed light, presenting an inclusive design spirit.
